East Asian Geographic Data Resources at Harvard

Center for Geographic Analysis
Harvard University

Slide presentation, 30 Jan 2013:

http://www.fas.harvard.edu/~chgis/work/docs/papers/ASH_CENTER_30JAN13.pdf

A. Online Webmaps (where layers of geographic data can be browsed without additional software)

   A.1   ChinaMap   http://worldmap.harvard.edu/chinamap/

   A.2   JapanMap   http://worldmap.harvard.edu/japanmap/

   A.3   G. W. Skinner Regional Analysis http://worldmap.harvard.edu/maps/skinner

   A.4   TibetMap   http://worldmap.harvard.edu/maps/tibet

   Useful websites for data browsing outside of Harvard:

   A.5   Oldmapsonline   http://www.oldmapsonline.org/

   A.6   Geocommons   http://geocommons.com/

   A.7   Hypercities   http://hypercities.com/

B.   Data Resources (where datasets that require using GIS software can be found & downloaded)

   B.1   Harvard Geospatial Library http://hgl.harvard.edu

   B.2   ChinaMap   http://worldmap.harvard.edu/chinamap/

   B.3   JapanMap   http://worldmap.harvard.edu/japanmap/

   B.4   China Historical GIS
            latest data: http://www.fas.harvard.edu/~chgis/data/chgis/downloads/v5/
            stable data: http://www.fas.harvard.edu/~chgis/data/chgis/downloads/v4/

   B.5   G.W. Skinner Data Archive   http://dvn.iq.harvard.edu/dvn/dv/hrs

C.   Overview of Primary GIS Data Sources for China

   http://www.fas.harvard.edu/~chgis/work/docs/papers/HVD_POLIT_WKSHOP_20110421.pdf

D.   GIS Training and Help Desk

   http://gis.harvard.edu/learning
